MSP Perfusion Student Scholarship: This scholarship is presented to a graduating perfusion student who completes at least one clinical rotation at a hospital in the state of Massachusetts at any time in their perfusion education. This year’s recipient is **Grayce Owens**.

Robert LaPierre Memorial Cardiac Surgery Mission Trip Grant: This grant is awarded to a perfusionist who is part of a team traveling internationally for life saving cardiac surgery. Since many participants on these missions are volunteers who are responsible for paying their own travel and lodging expenses, the award is meant to offset some of these costs.
